## PROFESSIONAL SUMMARY

With over 15 years of diversified experience in IT, I have developed strong expertise as a functional expert focusing on testing. Throughout my career, I have honed communication, problem-solving, and decision-making skills, enabling effective collaboration with cross-functional teams.

Well-versed in agile methodologies, including sprint meetings and functional reviews, I consistently create comprehensive functional documentation and execute test cases when necessary.

I take a proactive approach, working closely with developers and test engineers to address issues and provide alternative solutions.
