SUMMARY

A dedicated Software Engineer with 2.5 years of hands-on experience in software development and a solid academic background. Skilled in building responsive, user-friendly interfaces and collaborating closely with cross-functional teams to deliver high-quality solutions. Eager to contribute technical expertise and problem-solving skills to dynamic development environments.

TECHNICAL SKILLS

Languages : TypeScript, JavaScript, HTML, CSS, Java, Python, C, C++

Frameworks : Angular, Node JS

Tools : Visual Studio Code, GitHub, Jira, Postman API

EXPERIENCE

Software Engineer

Apr 2022 – Apr 2025

Alpha Ori India Pvt Ltd

- Completed a 5-month internship and transitioned to full-time role, working with TypeScript, Angular, JavaScript, Node.js, HTML and CSS.
- Developed key UI components from scratch; contributed to scalable and responsive web applications.
- Integrated front-end with APIs; handled debugging, unit testing, and performance optimization.
- Designed architecture and conducted code reviews to maintain quality standards.
- Received *Star Performer Award (2024)* for outstanding contributions.
- Mentored new joiners and participated in campus recruitment activities.
- Experienced with tools like VS Code, GitHub, Jira, Docker, AWS and Postman.
- Involved in development, maintenance, and enhancement of production applications.
- Created technical documentation and Excel-based analysis tools.
- Committed to continuous learning and team collaboration.

EDUCATION

APJ Abdul Kalam Technological University

Kerala, India

Master of Computer Applications (MCA)

2022

CGPA - 8.91

Mahatma Gandhi University

Kerala, India

Bachelor of Computer Applications (BCA)

2019

CCPA - 9.07 | 14th rank under MG University

CERTIFICATIONS

- Participated in the Faculty Development Programme on “**Introduction to Cloud Computing Architecture**”.
- Completed “**Programming, Data Structures and Algorithms using Python**”, from NPTEL with 96% score.
- Completed “**The Comprehensive SQL Course**” from Udemy, gaining a solid foundation in database management.
- Completed “**The Complete HTML 5 Course: From Beginning to Expert**” from Udemy enabling the development of dynamic web applications.
- Completed “**Java Programming: Complete Beginner to Advanced**” from Udemy deepening my understanding of object-oriented programming.
- Completed “**The Complete Introduction to C++ Programming**” from Udemy enhancing my programming skills in C++.
- Completed “**Machine Learning: From Basic to Advanced**” from Udemy equipping myself with essential concepts in this rapidly growing field.
