- Bachelor In B.SC Computer Science

P R O F I L E S U M M A R Y

Sign language is very important for the deaf and the mute people to communicate both with the normal people and with themselves. Our aim was to develop a sign language recognition system capable enough to translate the most commonly expressed hand gestures used by deaf or a dumb person into textual data. We have used for development of this PyCharm Software Tool. After that, I have worked on many research papers on health-care and agriculture ideas linked to Data analysis and visualization have been implemented in the Python language using libraries like Pandas, Matplotlib, and Numpy for the user-required view. Meanwhile, use PowerBI and Tableau for data visualization.
