# MUHAMMED NISAM K

## WEB DEVELOPER

Skilled PHP & Laravel Web Developer with 2 years of experience in building dynamic, secure, and responsive web applications. Proficient in PHP, Laravel, MySQL, HTML/CSS, JavaScript, jQuery, and Bootstrap. Experienced in API integration, MVC architecture, Blade templating, and RESTful services. Strong in Git, debugging, and server deployment using cPanel or SSH. Committed to clean code, performance optimization, and scalable solutions.

## Experience

### 2023 - 2025

#### ACEMERO TECHNOLOGIES PRIVATE LIMITED

##### Web Developer

- Developed and maintained RESTful APIs using Laravel Framework and PHP, leveraging MVC architecture and Eloquent ORM to enable fast, secure, and scalable backend functionality, improving application response times by 30%.
- Collaborated with front-end developers to integrate backend services using Blade templating, AJAX, and jQuery, enhancing UI responsiveness and delivering a 25% faster feature rollout.
- Integrated third-party APIs and payment gateways such as Razorpay and ShurjoPay securely, ensuring seamless API integration and achieving a 99.9% transaction success rate.
- Debugged and resolved complex issues across the Laravel codebase, utilizing error handling, validation rules, and unit testing with PHPUnit, reducing bugs by 50% and increasing system stability.
- Built responsive web designs with HTML5, CSS3, and Bootstrap, ensuring cross-browser compatibility and enhancing mobile user experience.
- Optimized MySQL database queries and schema design for efficient CRUD operations, improving data retrieval speeds by 20% in high-traffic modules.
- Implemented dynamic and interactive features using AJAX and JavaScript, reducing page reloads by 60% and improving overall user engagement.
- Managed version control workflows using Git and platforms like GitHub/GitLab, ensuring collaborative development and clean, maintainable codebases.
- Wrote reusable, efficient PHP code following Laravel best practices, facilitating scalability and supporting up to 10,000+ concurrent users.
- Handled server deployment and management through cPanel and SSH, streamlining continuous integration and deployment (CI/CD) processes to reduce downtime.

## Education

### Master of Computer Application(MCA)

2021 - 2023

Kannur University

### Bachelor of Computer Application(MCA)

2018 - 2021

Jamia Hamdard University

## Personal Projects

### EKART - Laravel eCommerce Platform

- Developed a fully functional e-commerce site with product listing, cart, order management, and payment integration.
- Focused on security, speed, and scalability — ideal for small to medium businesses.

### QuickBlog - Blogging Platform

- Implemented full authentication with role-based access for post creation, editing, liking, and commenting.
- Included image upload, post timestamping, and real-time like counts with proper access controls

### Campus Recruitment System (PHP)

- Built a web-based platform for students and employers to register and connect for placements.
- Featured fast access to applicant data and secure authentication.
