PROFILE

Graduate of Computer Science from Bahria University Karachi; possess good problem solving skills and practical knowledge of C++, Java, Flutter, Python and SQL. Having the knowledge of project management principles and Agile methods that facilitated successful organization and presentation of technical solutions. I am interested in learning new technologies and work in dynamic teams in the technological world.

EXPERIENCE

BenchMatrix Ltd. Internee 2023 (3 months)

My experience in mobile and backend development was enhanced by working on Flutter and Java Spring Boot at BenchMatrix. The nature of my daily assignments was practical and it assisted in active project development such as helping in sprint planning and tracking of tasks, thus leading to early introduction of project coordination and management tools. This experience enhanced my problem solving and programmer.
