

# MUJEEB AHMED

## Senior SQA Engineer

Email Address: mujeebahmed7011@gmail.com | Mobile: +92-333-3452779 | LinkedIn: www.linkedin.com/in/mujeeb-ahmed-Karachi.

### SUMMARY

*With 5+ years of experience testing mobile applications on various real devices, competent in both manual and automated testing and scripting. Expertise includes designing, developing, and executing comprehensive test plans to ensure exceptional software quality. Proficient in C# and Java programming languages, providing effective.*

### SKILLS

**Appium Studio:** Proficient in mobile app automation testing.

**Apache JMeter:** Experienced in performance, load, and stress testing.

**Exploratory Testing:** Optimized manual testing, ad-hoc Testing, and error guessing.

**Documentation:** Created test plans, test cases, test summary reports, DDR reports, and test scripts.

**Bug Tracking Tools:** Utilized Jira, GitLab, GitHub, and ClickUp for efficient bug tracking.

**Selenium Web Driver:** Applied POM and BDD methodologies using Gherkin syntax.

**Postman:** Conducted API testing with TDD to ensure requirements were met.

**Soft Skills:** Strong social abilities, collaboration, empathy, and conflict resolution.

### WORK EXPERIENCE

#### Senior SQA Engineer | Eplanet Global | Nov 2023 - Present | Karachi - PK

- Verified compliance of over 50 Figma designs with project requirements.
- Maintained a 95% adherence rate by aligning daily tasks with company priorities.
- Prepared accurate weekly project or task status reports for informed decision-making.
- Discovered critical usability issues pre-beta release, reducing post-release complaints by 20% and enhancing user satisfaction.
- Implemented white-box testing, detecting 30% more bugs pre-deployment.
- Compiling comprehensive reports, leading to a 30% increase in issue resolution efficiency.

#### SQA Engineer | Symmetry Group | Mar 2022 - Nov 2023 | Karachi - PK

- Decreased post-release issues by 30% through rigorous testing.
- Developed over 50 test scenarios, ensuring product functionality and adherence to specifications.
- Advocated for advanced testing tools, contributing to a 35% increase in team productivity.
- Utilized SDK ADB for crash and trace log analysis, improving issue resolution by 25%.
- Executed through security tests, resulting in a 40% decline in security-related incidents.

#### Junior SQA Engineer | Techstirr | Jul 2021 - Mar 2022 | Karachi - PK

- Reduced testing time by 50% through efficient testing strategies.
- Accelerated release cycles by 30% via Appium Studio and App Circle CI/CD integration.
- Conducted testing on real Android and iOS devices, improving accuracy and increasing bug detection by 20%.
- Agile (Scrum) project milestones, increasing project efficiency by 15%.
- Enhanced testing efficiency by 40% with time-saving strategies and speed up deployment by 50% via CI/CD integration.
- Boosted ratings from 3.5 to 4.3 stars through rigorous mobile app testing.

#### Associate SQA Engineer | sawy.com.pk | Dec 2019 - Jul 2021 | Karachi - PK

- Reduced testing duration by 25% through proficient execution in diverse functional and regression testing.
- Increased efficiency by 40% through Selenium Web-driver integration for web app testing.
- Improved system performance by 20% through rigorous API testing and load, stress, and volume testing.
- Lower defect leakage by 15% through deep expertise in STLC methodologies.
- Better product reliability through extensive testing efforts.
- Diminished post-release issues by 20% through 300+ completed test cases.

## EDUCATION

**Bachelors in Computer Science** from *SZABIST, Karachi* | Sep 2016 - May 2021

---

## PROJECTS

**VGM Voice Gesture Messaging:** The VGM Project significantly improves mental wellness accessibility for visually impaired individuals, resulting in a 30% increase in access to mental health resources.

---

## CERTIFICATION

- Introduction to Selenium
  - Agile Scrum, Advanced Software Development Program Management
  - Robotic Process Automation
  - CI/CD for Beginners.
-
