---

## PROFESSIONAL SUMMARY

Highly motivated and results-oriented Android Developer with over a year of experience in building robust, scalable mobile applications using Kotlin and the MVVM architecture. Proven expertise in integrating RESTful APIs, managing local data with Room and SQLite, and collaborating with cross-functional teams to deliver exceptional user experiences. Possesses a strong foundation in computer science principles and a passion for continuous learning, as demonstrated by certifications in AWS, ServiceNow, and advanced Android development. Eager to leverage technical skills and problem-solving abilities to contribute to a dynamic software development team and create high-quality mobile solutions.

---

## TECHNICAL SKILLS

- Languages: Kotlin, Java, Python, JavaScript, C, PHP
  - Mobile Development: Android SDK, Android Jetpack (ViewModel, LiveData), MVVM Architecture, XML Layouts, React Native
  - Frontend: HTML, CSS, React.js, React Navigation, Redux
  - Networking: RESTful API Integration, Retrofit, OkHttp
  - Databases: Room Database, SQLite, MySQL, MongoDB
  - Tools & Platforms: Git, Android Studio, Visual Studio Code, JIRA
  - Concepts: UI/UX Design, Agile Methodologies, Clean Code Principles
- 

## WORK EXPERIENCE

### Android Developer | 7EDGE Pvt Ltd

- Aug 2024 – Apr 2025
- Paymaart (Android Application):
  - Spearheaded the development and maintenance of the Paymaart Android application using Kotlin and MVVM architecture, focusing on writing clean, maintainable, and scalable code.
  - Successfully integrated a wide range of core features by implementing RESTful API integrations, ensuring seamless networking for real-time data updates and enhanced functionality.
  - Collaborated effectively with cross-functional UI/UX teams to design and implement optimized user interfaces, resulting in a seamless and intuitive user experience.
- ZoodPay (React Native Application):
  - Contributed to the development of ZoodPay, a React Native-based Fintech mobile application, utilizing React Native, Redux, and RESTful APIs to implement features such as digital wallets, peer-to-peer transfers, and secure bill payments.
  - Implemented local storage and database solutions using SQLite and AsyncStorage to ensure secure and efficient handling of user data.

### **Front-End Web Development Intern | SECON Pvt Ltd**

- *Mar 2024 - Jul 2024*
  - Contributed to the development of GIS (Geographic Information System) projects, building interactive and responsive web interfaces using modern frontend technologies.
  - Integrated geographic data, including maps, layers, and geospatial information, into web applications to improve data visualization and provide real-time information to users.
- 

### **EDUCATION**

- **Bachelor's Degree in Computer Science & Engineering** | *Alva's Institute of Engineering and Technology* | May 2024
    - *First Division with Distinction (7.97 GPA)*
  - **Higher School Certificates** | *Karnataka PU State Board* | March 2020
  - **Secondary School Certificates** | *Central Board of Secondary Education* | March 2018
- 

### **CERTIFICATIONS**

- AWS Certified Cloud Practitioner
- ServiceNow Certified System Administrator
- The Complete Android 14 & Kotlin Development Masterclass
- Java Full Stack Course by Wipro TalentNext
