PROFILE

Passionate and dedicated Software Developer with a strong commitment to continuous learning and staying updated with emerging technologies. Eager to contribute to innovative and dynamic projects in a collaborative, fast-paced environment. Known for adaptability, problem-solving skills, and a drive to grow within the tech industry.

PROFESSIONAL EXPERIENCE

Junior Software Developer (FESF – Since September 2024)

- Developed dynamic PSL Activities using React.js, focusing on interactive user experiences and responsive UI components.
- Performed software testing using Pest PHP, including writing factories and comprehensive unit tests to ensure reliability and code quality.
- Currently contributing to the development of a Digital Lesson Tracker using Laravel and FilamentPHP, implementing modern backend features and admin dashboards.
- Collaborated with senior developers in Agile-based workflows, participating in code reviews, stand-ups, and version control using Git.
- Actively involved in continuous learning of tools and frameworks, with a strong emphasis on clean code practices and maintainability.

| • HTML 5 | • CSS 3 | • JavaScript | • Tailwind |
| • Git & Github | • React.js | • SQL | • Python |
| • Laravel | • Filament | | |

PROJECTS

Weather Application – React.js

- Built a **weather application** using **React.js** that fetches real-time data via **API integration**.
- Enabled users to enter any **city name** to view its **current weather conditions**.
- Designed with a **clean and user-friendly interface** for a smooth experience across devices.

Amazon Clone

- Developed a functional **Amazon clone** using **HTML5** and **CSS**, replicating key features and design elements.
- Designed responsive **product listing pages** with grid layouts, images, prices, and ratings to mirror Amazon's UI.
- Applied modern **CSS techniques** to create interactive and visually consistent components.

E-Commerce Website

- Designed and developed a full-featured **e-commerce website** using **JavaScript**.
- Implemented key features like **product catalog**, **user login**, **shopping cart**, and **order management**.
- Ensured **responsive design** for smooth performance across all devices.

EDUCATION

University of Karachi | Department of Computer Science (UBIT)

Bachelor of Science (BS) in Software Engineering

DJ Sindh Govt Science College 2019

High School Certification(Inter)

Mount View Secondary School 2016

SSC with A+ grade

COURSES

React.js (Coursera)

- certificate program in progress

EXTRA-CURRICULAR ACTIVITIES

- Actively participate in **outdoor sports**, especially **cricket** and **badminton**, to stay energetic and engaged.
- Maintain a healthy lifestyle through **regular gym workouts** and physical fitness activities.
