

# Sahid Khan

## Full Stack Developer

I am an experienced Full Stack Developer skilled in designing, developing, and optimizing high-performance web applications. I possess expertise in both front-end and back-end technologies, API integrations, and database management. My strong problem-solving skills enable me to thrive in collaborative Agile teams, delivering successful software solutions

### Address

Jaipur, Rajasthan, India

## Education

20219-2023

**B.Tech in Computer Science and Engineering**

JECRC College

2018 - 2019

**12<sup>th</sup> Class PCM**

New Adarsh Public School

## Expertise

- JavaScript
- React.js
- Node.js
- Express.js
- Mongo Db
- Tailwind / CSS3

## Language

English

Hindi

## Experience

○ **Nov 2025 - Currently**  
Lnavonous ( Remote )

### Full Stack Developer

As a Full Stack Developer at Lnavonous, I worked on building and maintaining SaaS-based applications for schools, hospitals, and business management systems using React.js, Next.js, Node.js, Express, and MongoDB. My role involved developing responsive front-end interfaces, creating secure REST APIs, implementing role-based authentication, and integrating dynamic modules like dashboards, reports, attendance, billing, and inventory. I collaborated with the team for deployments on Vercel and Render, optimized application performance, and ensured smooth end-to-end functionality across all client projects.

○ **Nov 2024 - Oct 2025**  
Regex Software Services Jaipur

### MERN Full Stack Developer

Worked in a software development company focused on creating innovative digital solutions, where I developed and maintained scalable MERN stack web applications. Designed RESTful APIs for smooth backend communication, optimized front-end performance, and implemented fully responsive UI designs. Integrated Redux and Context API for efficient state management, conducted code reviews, and optimized backend queries to improve overall system performance and speed.

○ **Dec 2023 - Oct 2024**  
BitBuilders Technology ( Remote )

### Software Developer Trainee

Worked on real-world web applications while learning full-stack development, including frontend (React, HTML, CSS, JavaScript) and backend (Node.js, Express, MongoDB). Assisted in building UI components, integrating APIs, fixing bugs, and improving application performance. Collaborated with senior developers, followed Git/GitHub workflows, and gained experience in writing clean, maintainable code and delivering features within deadlines
