

Owais Ahmed

aowais986@gmail.com

+923323628980

Karachi, Pakistan

I am a dedicated computer science professional with hands-on experience in both web and mobile application development. Skilled in frontend and backend technologies such as React JS/Native, Nide JS, and MongoDB, I have successfully delivered scalable, secure projects, including a Salon Hub App built with React Native . I am a curious person and quick learner eager to apply my skills to meaningful projects in the tech industry.

EDUCATION

BS Computer Science

International Islamic University

07/2020 - 04/2024

Islamabad, Pakistan

SKILLS

React JS/Native

Mongo DB

Node JS

Tailwind CSS

Javascript

WORK EXPERIENCE

BACKEND DEVELOPER(Remote)

Migrato Advisors

11/2024 - 01/2025

Developed and automated PDF generation systems by designing APIs for efficient data processing. Integrated Excel file uploads with dynamic PDF generation, streamlining document creation workflows. Collaborated with stakeholders to gather requirements and provide tailored solutions for business processes.

Full Stack Intern(Remote)

ITSOLERA

07/2024 - 10/2024

Islamabad, Pakistan

Contributed to API integration and front-end UI development. Built functional, user-friendly web interfaces and backends. Gained hands-on experience in full stack technologies, teamwork, and agile project delivery.

PERSONAL PROJECTS

Salon Hub APP (FINAL YEAR PROJECT)

(03/2024 - 07/2024)

- **Frontend Development for Mobile App:** Developed a client-side Android application using React Native , enabling users to book salon appointments conveniently and securely. The app provides a responsive and user-friendly experience across Android devices.
- **Session Management and API Integration:** Managed user sessions using Async Storage for seamless user authentication. API integration facilitates real-time data synchronization between the app and backend, ensuring consistent booking information across platforms and enhancing the user experience
- **Enhanced Functionality with Location Services:** Integrated location services to offer location-based suggestions and navigation, delivering a more personalized and convenient booking process

LexAi(Contract Analyzer) (03/2025 - 04/2025)

- LexeAi is an AI-driven web app that simplifies contract analysis for professionals. Users can upload up to five PDF or TXT files to receive smart, secure reviews. The platform highlights red flags with risk percentages and client favorability scores. Insights are organized into tabs like Overview, Negotiations, and Risky Conditions. LexiAI ensures faster, clearer, and more efficient legal document review..

COURSEWORK

Object Oriented Programming

Data Structure and Algorithms

Web/App Development
