## 📄 Profile

**DevOps Engineer** with hands-on experience in cloud infrastructure automation, CI/CD pipelines, and container orchestration. Skilled in AWS, Terraform, Docker, Kubernetes, and GitHub Actions with a background in IT support and QA. Adept at troubleshooting, system optimization, and deploying resilient, scalable cloud environments.

## 🧠 Skills

- **Programming/Scripting:** Python, Bash
- **CI/CD:** GitHub Actions
- **Containerization & Orchestration:** Docker, Helm, Kubernetes (K8s)
- **Infrastructure as Code (IaC):** Terraform, Ansible
- **Cloud Platforms:** Amazon Web Services (AWS), Microsoft Azure
- **Version control:** Git, GitHub
- **Database:** PostgreSQL, MySQL
- **Monitoring:** Prometheus, Grafana.
- **Soft Skills:** Problem-solving, collaboration, communication, and adaptability.

## 💼 Professional Experience

Vine Mobility Ltd,  
DevOps Engineer

DEC 2024-Present | Lagos, NG

- **Created** and **maintained** fully automated CI/CD pipelines for Python and Node.js deployments using GitHub Actions, reducing errors and accelerating production releases.
- **Administer** and **manage** Linux servers (Ubuntu and CentOS) to ensure the seamless functioning of web applications and services.
- **Implemented** continuous infrastructure monitoring and log management by configuring AWS CloudWatch, Prometheus, Grafana, and Grafana Loki to track server resources and centralise logs in real time.
- **Implemented** AWS security best practices—MFA, access key rotation, IAM RBAC, and S3 bucket policies.
- **Automated** and **streamlined** infrastructure provisioning and management using Terraform for consistency.
- **Improved** server uptime and reliability to **95%** by proactively monitoring and managing Linux servers (Ubuntu, CentOS) and implementing real-time observability with AWS CloudWatch, Prometheus, Grafana, and Grafana Loki.

Xown Solutions Ltd,  
IT Support Engineer

MAY 2023-AUG 2024 | Lagos, NG

- **Executed** comprehensive User Acceptance Testing (UAT) scripts, validating software functionality and ensuring seamless user experience.
- **Led** a cross-functional team to manage and secure sensitive documents on the cloud, ensuring compliance with security standards.
- **Diagnosed** and **resolved** complex system issues, improving performance and reducing downtime by 25%.
- **Oversaw** regular backups to safeguard critical data, ensuring business continuity and reliable cloud infrastructure management.
- **Implemented** DevOps deployments, automating workflows to accelerate software delivery and minimise errors.
- **Configured** Microsoft accounts and Outlook setups for employees. Enhancing organisational communication and collaboration.

- **Mastered** fundamental networking concepts, including TCP/IP and subnetting, enabling effective troubleshooting.
- **Engineered** and **optimised** router designs to improve price tracking processes and system reliability.
- **Designed** and **assembled** tracking devices for fuel price monitoring, improving data accuracy and reporting efficiency.
- **Analysed** and **interpreted** survey data to guide strategic business decisions, driving measurable outcomes.
- **Automated** workflows by authoring scripts, streamlining operations, and reducing manual effort.

## Education

**Yaba College of Technology,**  
ORDINARY NATIONAL DIPLOMA (OND) – Electrical/Electronics Engineering  
**Yaba College of Technology,**  
HIGHER NATIONAL DIPLOMA (HND) – Electrical/Electronics Engineering

OCT 2016-DEC 2018 | Lagos, NG

AUG 2020-APRIL 2022 | Lagos, NG

## Achievement

- **Led** cross-functional collaboration to secure sensitive documents on the cloud, ensuring compliance with security standards and reducing downtime by 25% through system issue resolution.
- **Streamlined** CI/CD processes, cutting deployment time by **60%** via GitHub Actions.
- **Increased** infrastructure provisioning speed by **70%** using Terraform automation.
- **Minimised** production errors by **eliminating manual deployment steps** via GitHub Actions.

## Passion

- Passionate about driving technology innovation and delivering high-quality results in every task.
- Passionate about developing IT support protocols to enhance system reliability and improve the end-user experience.

## Certifications

- **Microsoft Certified: Azure Fundamentals – June 2025**  
Credential ID: 81798E096EAA26DC
- **Kubernetes and Cloud Native Association: The Linux Foundation - July 2025**  
Credential ID: LF-iubvu64jgl
