SELECTED PROJECTS

Guess the Number – Mobile App

Jan 2025

- Created an interactive mobile game using React Native, JavaScript, and XML, where users guess a random number within a limited range.
- Designed responsive layouts and implemented smooth state management for better user experience

Restaurant Management System - Desktop Web Application

Sep 2024

- Developed a system using Python (Django), HTML, CSS, JavaScript, and MySQL where users can place orders, pay online or via cash, and receive real-time order updates.
- Built an admin panel for managing orders, updating statuses, and dynamically adjusting menu items.
- Wrote efficient, scalable code in Python (Django) following the MVC architecture, integrating third-party payment APIs.
- Conducted code reviews and testing to ensure code quality, scalability, and reliability of the system.

CERTIFICATIONS

- Mobile Application Development

NED University - Jan 2025

- Advanced Python Programming and Applications

You Excel - Sep 2024

- Diploma in Software Management

Aptech Learning - Jan 2024
