

ABDUL MAJID

Front – End Developer
and IT Professional

SUMMARY:

I am a self-motivated IT professional with less than one years of experience in IT and front-end and back-end web development. I specialize in JavaScript, HTML, CSS, PHP, SQL and mobile-responsive design, and am skilled in writing clean, efficient code. My proficiency extends to MS Office, Excel, and web browsing. I hold a Bachelor's and Master's degrees in Computer Science, as well as three month diploma in cyber Security, all from institutions in Pakistan. I have also developed a personal portfolio website to Showcase my projects and expertise.
