SUMMARY

Highly skilled Software Engineer with a passion for crafting innovative mobile and web applications. Leveraging 4+ years of extensive experience, I specialize in Flutter, VueJs and Angular to deliver dynamic and user-centric solutions. With a solid background in computer science, I excel in every phase of the software development lifecycle, from conceptualization and design to implementation and deployment. Committed to staying abreast of emerging technologies and continuously enhancing skills to meet the ever-evolving demands of the industry.

WORK EXPERIENCE

Senior Software Engineer , K-Labs Technologies Oct 2021 - Present

- Building efficient cross-platform applications using Flutter
- Produced websites using frameworks like Vuejs, Nuxtjs & Angular, compatible with multiple browsers.
- Tested methodology by writing and executing test plans, debugging, and testing scripts and tools.
- Mentored junior software engineers, providing guidance on coding standards, best practices, and professional development.
- Led a team of software developers in designing, implementing, and maintaining complex software solutions, enhancing product functionality and user experience.
- Managed version control and software deployment processes using Git and Jenkins, ensuring smooth and continuous delivery of updates.

ASP.NET Web Developer, Global Axencia June 2021 - Sep 2021

- Developed and maintained responsive website designs, improving user experience across various devices.
- Optimised web applications for mobile devices, ensuring responsive design and seamless user experiences across all platforms.
- Employed version control tools like GIT to manage codebase changes effectively, enhancing team collaboration and project tracking.
- Integrated social media functionality into websites, boosting online presence and engagement.

Junior Flutter Developer, IT Retina Mar 2021 - June 2021

- Integrated server reports for optimum performance tracking and data management.
- Utilised Agile methodologies to manage project lifecycles, resulting in efficient and adaptable development processes.
- Integrated third-party APIs and services into software solutions, enhancing functionality and user experience.

EDUCATION

Bachelor of Science in Computer Science

Jan 2017 - Feb 2021

Dha Suffa University

- Strong understanding of data structures and algorithms, demonstrated through [e.g., coursework, personal projects, competitive programming].
 - Understanding of operating system concepts such as process management, memory management, and file systems.
 - FYP on "Sales Lead Generation".
-

SKILLS

- Flutter
- Angular
- VueJs
- Kotlin
- Websockets
- CI/CD
- Cross-platform development
- Web application development
- Version control management
- Test plan creation
- Agile methodologies
- Team leadership
- Jira
