

PROFESSIONAL SUMMARY

Creative and reliable Frontend Developer with 2 years of hands-on experience at Infusion Technologies. Proven ability to develop clean, efficient, and visually appealing websites using React.js, Next.js, and modern web technologies. Alongside my full-time role, I have successfully delivered freelance projects for various clients, showing strong problem-solving skills and a commitment to quality. I enjoy turning ideas into functional, user-friendly web interfaces.

WORK EXPERIENCE

FRONTEND DEVELOPER – STONE SUPPLIER WEBSITE

Infusion Technologies

- Developed a full-featured, responsive website for a stone supplier business using Next.js, Tailwind CSS , shadecn.
- Implemented Server-Side Rendering (SSR) for dynamic content and Incremental Static Regeneration (ISR) to serve updated static pages without full rebuilds, improving both performance and SEO.
- Built a custom CMS to allow the client to easily manage product categories, images, Quote , and descriptions.
