## Senior Software Developer / Team Lead/Client Handling

Mohali, Punjab, India • j234kondal@gmail.com • +91-79868-01690 / +91-82889-71252

---

### Professional Summary

Software engineering leader with 9+ years of hands-on experience in building native Android and cross-platform apps using Kotlin, Java, Dart, Jetpack Compose, and Flutter. Adept at architecture-driven development (MVC/MVP/MVVM), local persistence (SQLite/Room), REST/Firebase integration, and leading distributed teams. Proven track record of client-facing leadership, mentoring teams, and delivering high-impact solutions.

---

### Technical Skills

**Languages & Frameworks:** Kotlin, Java, Dart, XML; Flutter; Jetpack Compose

**Architectures:** MVVM, MVP, MVC; clean architecture patterns

**Data Persistence:** Room, SQLite, SugarCRM, Firebase Fire store

**Other Tools:** Firebase (Auth, FCM), REST APIs, Google Maps/Places, Stripe, Razor pay

**Dev Tools:** Android Studio, Git (GitHub, version control workflows), CI/CD pipelines

**AI Tools:** GitHub Copilot, Cursor, Windsurf

**Soft Skills:** Client engagement, team mentoring, Agile collaboration, code reviews

---

### Professional Experience

#### Damco Solutions Pvt Ltd — *Senior Software Developer / Team Lead/Client Handling*

**Oct 2021 – Present**

- Lead a team of 4–6 engineers developing Flutter/Kotlin-based Android apps (Jetpack Compose, Dart, MVVM, Room + Firebase) & Flutter modules.
- Client handling/Project onboarding and Create Project Estimate.
- Oversaw end-to-end project delivery: requirements gathering with clients, architecture design, development, testing, and release.
- Enhanced performance and stability; reduced crash rate by ~30% via structured error handling and monitoring.

- Mentored team members in best practices: Jetpack Compose, state management, code modularization, and version control.

#### **Key Projects:**

- **Smooth Commerce suite** (13 Kotlin/Flutter apps, Canada): food-delivery platform apps with Firebase, social logins, PayPal in-app payments (team handled client communications, approvals).
  - **Afterlife** (Kotlin + Jetpack Compose): social legacy app (timestamped posts after user's death), video/audio/text uploads, Razorpay integration.
  - **Twible** (Kotlin + Firebase + XMPP, Razorpay): chat/calling + business registration + in-app store & payments.
- 

#### **Scramble Apps Pvt Ltd — Product Development Specialist / Team Lead/Client**

##### **Oct 2020 – Sept 2021**

- Led a small team building Flutter e-commerce apps (**Fashion App, Liquor App**) with Stripe, social logins, Firebase backend.
  - Client handling/Project onboarding and Create Product Estimate.
  - Coordinated directly with clients on feature requests, UI/UX feedback, delivery timelines, and bug tracking.
- 

#### **Seasia Infotech — Assistant Consultant – Software Developer / Team Mentor**

##### **Aug 2016 – Sept 2020**

- Led small development squads (2–3 developers) on multiple feature-rich Android projects using Java/Kotlin, MVC/MVP, and SQLite/Room.
- Owned client communications and project delivery coordination across seven projects:

<b>Project</b>	<b>Role / Team Leadership</b>
YETI Snow Tracker (Java/XML)	Mobile app for snow-removal operations; coordinated with operations leads
JOWAY Courier App (Java/XML)	Delivery workflows; mentored junior team members

<b>Project</b>	<b>Role / Team Leadership</b>
BIFOOT Rider App (Java/XML)	Group rides, chat, map tracking; guided integration with social login APIs
Sumeru ENSource (Java/XML)	Financial sales tool with offline support and push notifications
Experts App (Java/Room)	Tablet + mobile app for agriculture surveys, mapping municipal addresses
Cabbies (Kotlin)	Driver/customer modules with FCM, live ride tracking
Seasia Repo App	Internal social feed & chat; coordinated feature backlog across team
Seasia Wallet App	Wallet workflows and Webview-based transaction history
DFA Crime Reporting (Kotlin)	Multi-user mobile app with OTP verification, NGO/client-approval flows
Privetalk Dating App (Java)	Social login, premium subscriptions, chat/photo sharing
Quran App (Kotlin/MVVM/Dagger-Hilt)	Client-facing; supported multi-language, bookmarks, UI scaling
<ul style="list-style-type: none"> <li>Mentored and led code reviews across projects, instituted development standards and code modularity.</li> </ul>	

## **Education**

- M.Sc. in Computer Science**, GNDU, 2015
- B.Sc. in Computer Science**, GNDU, 2013
