## ABOUT ME

Experienced Full-Stack Web Developer with 3+ years of expertise in designing, developing, and optimizing high-performance web applications. Proficient in modern technologies like JavaScript, React, and AWS, with a strong focus on user-centered design, performance optimization, and scalability. Adept at problem-solving and collaborating with teams to deliver seamless digital experiences. Recognized for outstanding performance and awarded for best performance in web development.

## WORK EXPERIENCE

I have Experienced Full Stuck Web Developer with over 3 years of expertise in designing, developing, and optimizing high-performance web applications. Proficient in modern web technologies, including JavaScript, React, and AWS, with a strong focus on creating user-centered designs that enhance user engagement and improve load times. Known for excellent problem-solving skills and a commitment to delivering scalable solutions in collaborative team environments.

- Assisted in the design and development of dynamic websites for clients in various industries.
- Resolved technical issues promptly, ensuring minimal disruption to website performance and user satisfaction.
- Wrote clean, maintainable code using HTML, CSS, and JavaScript.
- Worked closely with senior developers to optimize and troubleshoot web applications.
- Participated in user interface design and testing to ensure optimal user experience.
- Maintained and updated existing websites, ensuring they remained functional and up-to-date.
- Developed and maintained client websites using HTML, CSS, JavaScript, and React.js.
- Enhanced user experience by implementing responsive designs using frameworks like Bootstrap and Tailwind CSS.
- Integrated third-party APIs and payment gateways, enabling e-commerce features.
- Optimized websites for faster load times and better performance using various tools and techniques like lazy loading and image optimization.
- Collaborated with designers and back-end developers to create seamless and functional websites.
- Ensured the security of websites by implementing security measures such as HTTPS and data encryption.

### Key Projects:

- E-Commerce Website, Developed a fully responsive e-commerce website with features like product catalog, shopping cart, and secure checkout.
- Integrated a payment gateway for seamless transactions.
- Corporate Website for Company, Designed and developed a modern, clean corporate website with a content management system (CMS) for easy content updates.
- Enhanced the user interface for better engagement.

## Community Service & Volunteer Work

- Technical Mentor, Provided free web development training to underprivileged students in the local community, helping them acquire essential coding skills and enhancing their employability.
