

# Siba Jamal

Flutter Developer - Software engineer

Phone: +971 505317600 Email: [sibajamal20@gmail.com](mailto:sibajamal20@gmail.com) Portfolio: [sibajamal.netlify.app](https://sibajamal.netlify.app)

Address: JVC, Dubai, UAE

## Experience

---

### Flutter Developer

Soft Tag [www.soft-tag.com](http://www.soft-tag.com)

Mar 2024 - Feb 2025

- Developed "Present App": A smart school notification system integrating smartwatch and real-time location services.
  - Designed and improved the UI for better user experience.
  - Enhanced app navigation and responsiveness.
- Built "StarGate App": A communication platform connecting players with sports clubs.
  - Designed full UI with Flutter following responsive design principles.
  - Implemented Domain-Driven Design (DDD) and BLoC for state and architecture management.

## Projects

---

E-commerce App:

- Developed E-commerce application.
- Utilized the Bloc design pattern for state management.
- Implemented Domain-driven design (DDD) as the architectural design pattern.
- Developed user interfaces and integrated authentication.

Weather App:

- Created a weather application providing weather information for Dubai.
- Utilized the Bloc design pattern for efficient state management.
- Employed Domain-driven design (DDD) as design architecture.
- Designed user interfaces for displaying current weather and a 5-day forecast.

Booky App:

- Developed a book store app for managing and browsing books.
- Implemented the Bloc design pattern for state management.
- Created a user-friendly interface for browsing and searching books.
- Used Firebase Authentication and Cloud Firestore.

## Courses

---

### [Flutter & Dart - The Complete Guide \[2022 Edition\]](#)

Udemy - 2022

### [The Complete 2021 Flutter Development Bootcamp with Dart](#)

Udemy - 2021

## Education

---

Bachelor's Degree in information technology

### [Tishreen University](#)

2016 - 2023, Latakia

## Summary

---

Skilled and motivated Flutter Developer with hands-on experience in building mobile apps from scratch using Dart, Flutter, BLoC, and Domain-Driven Design (DDD). Proficient in crafting intuitive UIs, integrating APIs, and implementing user authentication. Driven to build seamless, high-quality mobile experiences and collaborate with teams that value clean architecture and innovation.

## Skills

---

- Flutter.
- Dart.
- Domain-driven design (DDD).
- Test-driven development (TDD).
- Clean Architecture.
- Clean Code.
- Design Patterns.
- State Management: Provider, Bloc.
- Third-party Integration.
- Firebase.
- Unit testing.
- Widget testing.
- Swift.
- SwiftUI.
- Java.
- JavaScript.

## Tools

---

- GitHub & GitLab.
- Codemagic.
- Postman.
- Notion.

## Language

---

**English**

Professional working proficiency

**Arabic**

Native
