PROJECTS

OTTPlatform Automation

Automated testing for Web, Mobile, and TV apps across platforms like Mediaset, YouTube, RaiPlay, Disney+, Netflix, Amazon Prime, Discovery+.

- **Tools:** Selenium, Appium **Devices:** iOS/Android, Smart TVs
- **Focus:** UI/UX, playback, cross-platform consistency
- **Content Recommendation Engine:** Built a model to suggest content based on user behavior.
- **Cross-Browser Testing Suite:** Created an automation framework for UI testing across major browsers.

MobileTest.me – Responsive Testing

Used MobileTest.me to test and validate responsive web design across multiple mobile device profiles.

Focus: Cross-device layout verification and UX consistency

Foodpanda – Restaurant Delivery Service

Contributed to testing/optimizing the Foodora web or mobile app (assumed involvement).

Focus: Functional testing, user flow validation, order placement scenarios

Foodpanda – Online Food Delivery Platform

Engaged in testing or enhancement of Foodpanda's home page and order process.

Focus: Homepage responsiveness, checkout process testing
