Sarib Abbasi

Graphic Designer

Objective

I'm a Creative Designer and UI Designer with 2 years of experience bringing digital ideas to life. Over the past couple of years, I've had the privilege of working on several international campaigns, teaming up with talented groups to create designs that are both beautiful and easy to use. I'm passionate about making sure the user experience always comes first, and I love simplifying complex concepts into clean, intuitive interfaces that people enjoy interacting with. Whether it's designing websites, mobile apps, or building a brand's visual story, I focus on creating designs that feel seamless and memorable for the users.

Certifications

C.I.T Computer Information Technology

Professional Experience

Orbhex

Creative UI Designer / Present

At Orbhex, I'm responsible for creating a variety of visual content for both digital and print, including social media posts, digital ads, logos, and branding. I also lead the design of user interfaces for web and mobile platforms, ensuring that the designs are both visually appealing and user-friendly. In collaboration with international teams, I work on campaigns that are on-brand and tailored to resonate with our audience, delivering creative solutions that meet both marketing and user experience goals.

Huge Vision

Graphic Designer / Nov 2024 - Mar 2025

I was responsible for bringing ideas to life through a variety of visual content across digital and print platforms. I designed everything from social media posts and digital ads to print materials, logos, and brand identities. I had the opportunity to collaborate on international campaigns, always making sure the designs were not only visually engaging but also stayed true to the brand and its goals. My main focus was on creating designs that were clear, creative, and connected with the audience in a meaningful way.

Cambridge Cloud Solution

Jr. Graphic Designer / Jul 2023 - Jan 2025

I created visual content for both digital and print, including social media posts, ads, logos, and branding. I worked on international campaigns, focusing on clear, creative designs that stayed on-brand and connected with the audience.
