Farrukh Shahzad

React/Next.js Developer

I am ReactJS and Next.js developer with a strong work ethic and creative problem-solving skills. Who demonstrates strong work ethic and creative ability. I am an energetic, ambitious person who has developed a mature and responsible approach to any task that I undertake, or situation that I am presented with. Seeking to apply my skills as an employee at your organization. Will leverage proven experience as a competent employee to contribute to company goals and needs.

Experience

July 2024 - Present
Web Developer
Maaz Technologies

- Developed web applications with NextJS, implementing dynamic features and optimizing user interfaces.
- Transitioned to Salesforce development, contributing to the creation and deployment of a Contact Center app on Salesforce AppExchange.
- Integrated external systems with Salesforce, improving communication and workflow efficiency.

Projects

Evently

- Web app built with Next.js 14, utilizing Tailwind CSS for styling and Shadcn for design enhancements.
- Features include authentication, event management, search, filtering, and categorization for seamless user experience.
- Utilizes React Hook Form and Zod for form management, Uploadthing for file uploads, and React-Datepicker for date selection.
- Integration with Mongoose for database management, Clerk for authentication, and Stripe for secure checkout and payments.

Travel Booking App

- Full-fledged travel booking website built from scratch with Next.js 14 framework, featuring a stunning landing page and clean, modern design.
- Seamless authentication using Next Auth ensures secure access for users.
- Utilizes Stripe for payments and refunds, enhancing the user experience with hassle-free transactions.
- Incorporates Prisma as the ORM for efficient management of data, along with Tailwind CSS for sleek styling and React components. Additionally, includes review functionality to provide valuable feedback on hotel experiences.

Car Rental Platform

- Revolutionizing car rental with ReactJS and Firebase for seamless user-transporter connections.
- User, transporter, and admin panels integrated for a comprehensive rental experience.
- Secure authentication enables safe car uploads with high-quality images.
- Advanced filters enhance search and upload efficiency, backed by Redux and local storage for optimal performance.
