SUMMARY

I am a dedicated and experienced Full Stack .NET Developer with a strong foundation in both front-end and back-end development. My expertise includes working with modern frameworks such as ASP.NET Core, Blazor, WPF, Windows Forms, and WCF, along with front-end technologies like HTML5, CSS, and Bootstrap. I have hands-on experience designing and developing robust enterprise applications using C#, SQL Server, PHP, and Laravel. With a detail-oriented and analytical approach, I strive to deliver scalable, high-quality solutions while ensuring seamless user experiences.

EDUCATION

NCBA&E University
Bachelors in Computer Science
2019 - 2023

CERTIFICATION

WEB DESIGN & DEVELOPMENT
Ai Hawks Institute – Certified in Web Design & Development(2022)

SOFT SKILLS

Scrum Master · Negotiation · Deadlines Handling · Collaborative Personality

EXPERIENCE

iFish Technologies   Multan, Pakistan
Full Stack Software Engineer   09/2023 - 06/2025

- Analyzed, designed, and developed .NET modules and components for diverse enterprise applications.
- Created and maintained .NET web services (WCF) to enable server communication.
- Delivered scalable, maintainable, and high-performance solutions using ASP.NET Core, C#, and SQL Server.

CODEX IT SOLUTION   Multan, Pakistan
Front End Developer   07/2022 - 10/2022

- Assisted senior web developers in designing and developing websites using HTML, CSS, JavaScript, PHP, and MySQL.
- Performed website maintenance and updates to ensure optimal functionality and performance.
- Conducted testing and debugging to identify and resolve issues.
- Collaborated with cross-functional teams to deliver projects on time.

SKILLS

HTML5 · CSS · Bootstrap · Laravel · C# · ASP.NET Core · Blazor · SQL Server · WCF · WPF · Web Design · Debugging · Visual Studio

PROJECTS

DineDive – Food Ordering Web App

- Designed and developed a food ordering web application with a Laravel and MySQL backend, and a frontend built using HTML, CSS, JavaScript, and Bootstrap.

iBusinessFlex - ERP

- Developed interactive, component-based user interfaces for core business modules using Blazor components.
- Implemented functionalities for inventory, sales, and employee management, enhancing system usability and performance.

KEY ACHIEVEMENTS

- **Key Accomplishments as a Full Stack .NET Software Engineer**
  Successfully developed and deployed end-to-end **Blazor** and **ASP.NET Core** web applications for enterprise use, improving system usability and performance.

- **Web Security Audit using Nessus Tool**
  Scanned the Daraz.pk website to assess its security posture. Utilized the Nessus vulnerability scanner to identify potential security flaws and misconfigurations. Gained hands-on experience in web application security and vulnerability assessment.
