Profile

Passionate Unity Developer with strong C# programming skills and experience in implementing gameplay mechanics, multiplayer networking, and animation systems. Skilled in developing interactive player controls, physics-based gameplay, and real-time event handling. Proficient in Photon for multiplayer interactions, Unity's Animator system for smooth character animations, and optimizing game performance. Experienced in debugging, script management, and ensuring seamless user experiences. Excited to contribute my technical expertise to crafting immersive and engaging gameplay experiences

Work Experience

Inovixion
jun 23-Mar 24
Game Developer Intern

During my Final Year Project (FYP) at Inovixion, I developed a Unity-based third-person shooting game. This project strengthened my skills in character control, aiming mechanics, and enemy AI, using Unity's NavMesh for effective pathfinding. I implemented core gameplay elements and complex combat scenarios, enhancing both technical proficiency and design insight. This hands-on experience was invaluable, equipping me with practical skills in Unity and C# for real-world game development projects

AIRIDEV - Islamabad
Sept 24-Nov 24
Game Developer Intern

At AIRIDEV, I've been contributing to a variety of game development projects that enhance my technical and creative skills. I've worked on game design, UI/UX optimization, script and animation management, and scene management to build engaging gameplay experiences. I also integrated Photon Unity Networking to enable multiplayer interactions, optimized gameplay for smoother performance, and utilized Unity's NavMesh. These projects offered hands-on experience with Unity's ecosystem, enhancing my abilities in both single-player and multiplayer game mechanics.

EDUCATION

ICS
2019-2020
Superior Group of Colleges Jahanian, Khanewal Pakistan

BS Computer Science
2020-2024
COMSATS University Islamabad Sahiwal Campus Pakistan
