PROFILE

Ambitious Full Stack Developer with proven ability to deliver and deploy production-ready projects on Vercel. Passionate about building scalable applications, and growing expertise in modern web technologies.

EDUCATION

2023 - 2025
GOVT. DEGREE COLLEGE
Intermediate in Computer Science (CS)
Karachi, Pakistan

PROJECT EXPERIENCE

CLASSCAST — Learning / Video Platform
Jun 2025 — Jul 2025

Solo — React, Socket.IO, Node.js, Express, MongoDB, Vercel.
Live: https://classcast.vercel.app

- Implemented course CRUD, enrollment flow, and video playback pages; used Socket.IO for real-time announcements.
- Prototyped core features (JWT auth, Socket.IO notifications, API routes) with assisted coding tools, then integrated them into a production-ready system.
- Solved reconnect/notification loss by queuing missed events on server and resending on reconnect.
- Deployed and documented APIs; created demo session page (unlisted) used for recruiter review.

SNAPSHOPR — Full-Stack Marketplace
Apr 2025 — May 2025

Solo — React, Next.js, Node.js, Express, MongoDB, Vercel
Live: https://snapshopr.vercel.app

- Built end-to-end product CRUD and image upload pipeline; implemented JWT auth and password hashing (bcrypt).
- Prototyped core features (JWT auth, Socket.IO notifications, API routes) with assisted coding tools, then integrated them into a production-ready system.
- Implemented server-side search and pagination; added input validation and basic error handling.
- Deployed frontend to Vercel and backend to Railway.

SKILLS

- Javascript
- React
- Next.js
- Express
- MongoDB
- Git and Github
- Vercel and Railway

LANGUAGES

- English
- Urdu
