BAABTE SYSTEM TECHNOLOGIES, CALICUT
2022

B.S.C COMPUTER SCIENCE
UNIVERSITY OF CALICUT
2019 - 2022

CERTIFICATIONS

- ORAY: Oray Education Flutter and Dart

PROFESSIONAL SUMMARY

Experienced and detail-oriented Software Developer with 2+ years in mobile and full-stack development. Specialized in building high-performance Flutter apps for iOS and Android, with expertise in state management (GetX, Provider), payment integrations, and Google Maps API. Proficient in backend development using Node.js, PostgreSQL, and Sequelize, with additional experience in React for web. Passionate about clean code, performance optimization, and crafting user-focused solutions.

PROJECTS

SPEEKI Ai - English Learning App :

An AI-powered English learning application designed to help students build confidence in speaking and pronunciation. Developed for both iOS and Android using Flutter, the app offers interactive modules and innovative methods to make learning English more engaging.
- Features SPEEKI Chat and SPEEKI Pronounce for AI-driven conversations and pronunciation practice.
- Uses multiple creative and tricky ways to help users learn English effectively.
- Focused on improving fluency and user engagement through gamified learning experiences.

APP STORE : **SPEEKI Ai**
GOOGLE PLAY: **SPEEKI Ai**

PARAMBADAN CRM - Lead Management System :

A comprehensive lead management application designed for multi-branch businesses to track, assign, and manage leads with real-time updates.
- Implemented advanced location features and tracking methods for better lead monitoring.
- Designed and managed multiple dashboards seamlessly within a single app.
- Focused on delivering a user-friendly interface and efficient lead management workflow.

APP STORE : **Parambadan App**

BGPack - Production & Inventory Management System :

A full-stack application developed for a cardboard manufacturing company to manage and track the entire production process, built using Node.js, React, and PostgreSQL.

- Manages complete production workflows with real-time updates on material usage and product output.
- Performs accurate calculations at each stage for clear data and final product counts.
- Provides detailed dashboards for improved visibility and decision-making.

WORK EXPERIENCE

FLUTTER DEVELOPER
SEPT 2024 -MAY 2025

Trogon Media

- Developing and maintaining LMS and CRM applications.
- Contributed to "SPEEKI AI", a learning management system with AI chat and real-time communication.
- Worked on "FINQUO VERSITY", a trading education platform with video lessons and community discussions.
- Involved in additional projects: "Renewed By JB", "Teacher Training Institute", "Vision Academy", "Bridco CRM"

WEB AND BACKEND DEVELOPER
MAR 2024 - SEPT 2024

BGPack (ERP System)

- Developed the backend using Node.js, PostgreSQL, and Sequelize, building APIs for manufacturing processes.
- Built the entire web application using React, including the admin panel, with modular components for easier updates and maintenance.
- Implemented real-time tracking and accurate loss calculations to enhance production efficiency and data accuracy.

FLUTTER DEVELOPER
MAR 2023 - APR 2024

Techffodils Technologies LLP

- Developed and launched "four" mobile applications using Flutter.
- Integrated RAZORPAY & INSTAMOJO for seamless transactions.
- Implemented "Google Maps API" for location-based services.
- Successfully deployed "two" applications to Google Play Store.
- Worked on:
- **WEZBRAIN:** An MLM learning app with "Instamojo payment gateway" integration.
- **GLOSSIQ**: A salon booking app with in-app payments and service duration estimation.
- **MOYO**: A taxi booking app with "Google Maps integration" and real-time updates.

FLUTTER DEVELOPER INTERNSHIP
JULY 2022 - DEC 2022

Baabte System Technologies

- Developed a Flutter-based app as part of the project.
- Learned state management, UI design, and API integration.
- Gained hands-on experience in building and testing mobile apps.
