EDUCATION

University of Helsinki — Helsinki,Fi
Full stack and System Design Certification — *Aug. 2023 – Jan 2024*

Superior College of Science — Karachi, Sindh
High School Diploma in computer engineering — *Aug. 2020 – july, 2022*

EXPERIENCE

Software development — oct 2024 – May 2025
Fly software — *Karachi, Sindh*
- participated in various aspects of software development and introduced new methodologies,migrated to bun and utilizing it's advantages for small projects
- Developed full-stack web applications using Nodejs, React, PostgreSQL and Typescript with a team to gain knowledge about the SDLC
- Enhancined Debugging Capability by Modularizing every bit of code

Android Development — Sep. 2022 – December 2023
Hobby
- Started putting my android dev skills to make a change
- Created an Ai chat app for a client in Kotlin using Llama
- Contributed to OSPs to learn about the possibilities in the field
- Made hooks for lsposed to ensure productivity on android,battling useless telemetry on the ecosystem

Helper in a community for web devs — May 2024 – present
Discord
-
- Helped solving beginner devs queries Enhancing my grasp on the subject
- Got mentored by seniors as i got stuck in solving problems reducing errors and using better approach to the problem
- Helped a guy create an omegle clone and got to learn about webSockets and WebRTC using Bun reducing lag by 0.233s

PROJECTS

Blogit | *Nodejs, React, PostgreSQL, Docker,CI/CD,typescript,graphQL* — Jan 2025 – Present
- Developed a full-stack web application using Nodejs serving a graphQL with React as the frontend
- Implemented JWT-based Authentication for secure login
- Converting it to rust for speed and to learn about RUST ecosystem
- Used Redis for asynchronous tasks
- utilized React Hooks to Implement Caching enhancing Snappiness of the Application

miscellaneous projects | *React Native,Kotlin, Typescript, Rust, Git,Bun,React,Express,nodejs* December 2024 – present
- Created a variety of mini-projects to strengthen my knowledge on basics of software development and methodologies
- Created A mini blog app to learn about GraphQL and how it differs from REST design of APIs
- Started Utilizing Typescript in every Project to Counter runtime errors and type-safety
- Converted some existing projects to RUST to learn about the RUST Ecosystem
- Utilized Bun's capabilities to ensure faster server side projects and the executions
- Generated Beautiful pages using CSS to ensure pixel-perfect designs

TECHNICAL SKILLS

Languages: Python, SQL, Postgres, JavaScript,Typescript, HTML/CSS, Rust,Kotlin, GraphQL
Frameworks: React, Node, Bun, Elysia
Developer Tools: Git, Docker, VS Code,Github Actions
