## Objective

I am a committed software engineer with hands-on experience in web, mobile application and software development. Proficient in JavaScript frameworks like Angular, React and Node.js, I have a strong background in building efficient APIs and enhancing database performance. I thrive in collaborative environments and derive satisfaction from delivering high-quality software solutions.

## Work Experience

### Lead Developer (Hybrid)   JULY 2025 - Present
websi

Served as Lead Developer, overseeing end-to-end web application development with Angular, React, and ASP.NET. Directed API integration, guided UI/UX improvements, and optimized SQL performance to enhance system efficiency and user experience.

### Software Engineer   FEB 2023 - JUNE 2025
Bizsoft Solutions, Karachi

Developed and managed full lifecycle of web-based software using Angular, React, and ASP.NET. Built RESTful APIs with WebAPI for seamless integration, and optimized database performance through SQL views and stored procedures.

### React Developer   JUNE 2023 - NOV 2023
TkLogics, Lahore(Remote)

Improved app UI/UX by implementing design specifications, integrating updates, and collaborating with design and development teams for seamless enhancements.

## Projects

### websiZen (HRMS)  -  websi

Led the development of WebsiZen (HRMS) with a custom design, collaborating with the team to build the platform using React, Node.js, and SQL.

### webSync (BI System)  -  websi

Built WebSync BI Reporting System with React, delivering advanced features, modern charts, and intuitive UI to enhance data visualization and support better decision-making.

### EWARND -  Bizsoft

Developed an advanced Inventory Management System using Angular, ASP.NET, MSSQL, designed to support diverse industries such as e-commerce, retail and warehouse management.

## Education

### IQRA UNIVERSITY   2019 - 2022
Bachelor Program in computer Science
