EXPERIENCE

Meri Sehat   Dec 2023 – Present
Assistant Manager, Frontend Engineer   *Karachi, Pakistan*
- Engineered responsive, user-focused front-end solutions using core technologies including HTML, CSS, and ReactJS, ensuring compatibility across modern browsers and devices.
- Collaborated closely with UI/UX designers and backend developers to integrate features and ensure seamless functionality
- Built a web application for doctors, clinics, and medication management, focusing on intuitive navigation and accessibility to enhance user experience for medical professionals and patients.

Legendesk   April 2023 – Dec 2023
Senior UI/UX Developer   *Karachi, Pakistan*
- Lead the design and development of UI/UX strategies, wireframes, prototypes, and high-fidelity visual designs.
- Collaborate with product managers, developers, and other stakeholders to understand user needs and deliver elegant solutions.
- My role is to translate creative software design concepts and ideas into reality using frontend technology. I have created multiple websites.

Cubix.   May 2021 – Mar 2023
Assistant Software Engineer   *Karachi, Pakistan*
- Create UI using HTML and CSS. Making a WordPress website. Also creating functions using JavaScript, and also working with frameworks like React JS
- Dominos: It is a gaming website where users can play the domino game with their domi coin, and it is created on React JS.
- PropChain: The website is for real estate where user can purchase and sell their home, and it's created on Angular.
