Summary

Results-oriented .NET Core Developer with 3 years of experience in building scalable web applications and APIs. Skilled in .NET Core, C#, ASP.NET Core, and SQL Server. Proven track record of improving performance and delivering high-quality solutions on time. Adept at working in Agile teams and committed to continuous learning.

Skills & abilities

- **Technical Skills** :
  .NET core | C# Programming | ASP.NET core | Entity Framework core | RESTful APIs SQL Server | HTML | CSS | JavaScript | Angular | Azure fundamentals

- **IDE/Tools**:
  Visual Studio | Microsoft SQL Server Database | Postman

- **Soft skills**:
  Problem Solving | Team Collaboration | Adaptability | Time Management

Experience

Computer Programmer

Sharp Innovation Information Technology Company|Jan 2025 – April 2025
Hafar Al Batin, Saudi Arabia

Project: Hafar Al Batin Municipality Website Development

Description:

- The Ticketing System project is used for online ticket booking, ticket generation, and user interface in angular for events or transportation.

- The Attendance Maintenance project is used to record, track, and manage the attendance of employees with report generation using asp.net core.

.NET core Developer

Infosys|July 2022 – 2024

Project: HRMS (Human Resource Management System)

Description: Developed and implemented a comprehensive HRMS to manage employee data, payroll, and performance evaluations.

Responsibilities:

- Designed and built scalable APIs using .NET Core and ASP.NET Core.

- Created and maintained the database schema using SQL Server and Entity Framework.

- Developed interactive user interfaces with Angular for efficient HR management.

- Integrated third-party services for automated tax calculations and electronic document management.

Achievements:

- Increased system adoption by 30% with an intuitive user interface.

- Decreased payroll errors by 25% through improved validation and calculations.

Project: XPO Logistics Supply Chain Management System

Description: Contributed to the development of a supply chain management system to optimize logistics operations and inventory management.

Responsibilities:

- Assisted in designing and implementing RESTful APIs using .NET Core

- Supported database design and optimization with SQL Server.

- Developed front-end components with Angular to enhance user experience.

- Participated in Agile sprints and contributed to daily stand-ups and sprint reviews.

Achievements:

- Enhanced system performance by 30% and reduced data processing times.

- Improved operational efficiency, leading to a 20% reduction in costs.

- Successfully supported deployment and integration with minimal disruption.

Education

Jeppiaar Engineering College	**2018-2022**

Electrical and Electronics Engineering | CGPA-8.23

M.A.M Senior Secondary School	**2016-2018**

Grade 12 | CBSE

Seventh-Day Adventist Matriculation School	**2014-2016**

Grade 10 | ICSE

Certification

- **Infosys Certified C# developer**   **| Infosys**
- **Infosys Certified SQL fundamentals**   **| Infosys**
- **PL-900 Power Platform Fundamentals**   **| Microsoft**
- **PI-100 Power App Maker**   **| Microsoft**
- **AI-900 Azure AI Fundamentals**   **| Microsoft**
